SUMMIT WING CHAIR

7727-C34

The Summit Wing Chair has a lovely side profile, with a curvaceous wing descending into a scrolled arm. This style of arm is typical of New England furniture makers in the Federal era. The Summit Wing Chair has been updated with a comfortable seat cushion and the scale of this frame makes it quite versatile. Fabric choices will add even more personality to make this wing chair look stylish and traditional, casual and cottage, or fresh and Euro-classic.
