The natural grasscloth wallcoverings approved for our Occasional Wrapped Furniture may slightly vary in color from roll to roll as these are 100% natural fibers, absorbing the dyes at different rates. Additionally, the hand-finishing production process provides a beautiful surface resistant to most household liquids. This process involves numerous sanding and clear sealer steps followed by protective coats of clear varnish which may slightly darken the final color. Finished samples of varnished grasscloth are available upon request, however this may add a few weeks to the typical production time.
