## Tough by Design and Soft to the Touch: Introducing the Mosaic Collection of Crypton Home Fabrics

Newark, NJ – Mosaic is a collection of Crypton Home fabrics that are tough by design and soft to the touch. This collection is a natural extension of Thibaut's offering in this category of high-performance fabrics. Thibaut's Crypton Home fabrics combine performance attributes with sumptuous color in Thibaut's signature color palette and a luxurious feel. Created for family-friendly living, these fabrics are woven to meet or exceed heavy-duty requirements for indoor upholstery, providing homeowners and designers with a fabric that is durable, breathable and stain-resistant.

As the namesake of the collection, **Mosaic** fabric captures all of the qualities desired in a base cloth with a clear color statement from a distance, and rewarding amount of detail up close. This is a basket weave woven with a variety of yarns that add texture and interest.

**Annalise** is a seductive chenille has subtle shine that will enhance curves on any frame, and is available in six subdued colors.

**Bailey** is an unusual cloth, evocative of a natural fiber with the practicality of a polyester warp. The slub yarn enhances surface interest, and it is woven with the finest chenille so it appears to have a brushed cotton surface without an obvious nap.

A linen look-alike in 3 subtle shades, **Lira** is great in any application from tight and tailored to relaxed shabby chic.

**Orion** is a small, interlacing herringbone in cotton chenille. Similar to Cumulus from the Kaleidoscope collection, this soft and livable base cloth is ideal for sofas and sectionals.

**Montage** is a modern chenille with texture running in both directions. It's great for tight frames like dining chairs or structured upholstery.

Dot, animal spot or pebble? **Kali** is a universal pattern offers surface interest in a soft rayon chenille.

**Gryffin** is a textural pattern is visually compelling and soft to the touch. It looks very sophisticated when upholstered because of the contrasting raised rayon chenille and matte cotton fibers.

Founded in 1886, Thibaut is the oldest continuously operating wallpaper company in the United States. Known for its exceptional and unique designs, the company distinguishes itself from its competitors with inspiring color palettes, fresh interpretations of classic designs, and exclusive artwork created by an in-house design team. Design styles range from historic reproductions, toile, and chinoiserie to tropical and novelty patterns. Designers and consumers have been attracted to the firm's creative designs that "push the envelope," their exclusive print fabrics, new woven fabric lines, and their market-tested products that help inspire people to decorate. For more information about Thibaut, visit the company's web site at [www.thibautdesign.com](http://www.thibautdesign.com).
