Let Your Imagination Run Wild With Woven Resource Vol. 10: Menagerie

Newark, NJ – Menagerie is a woven resource collection of luxurious, frame-ready fabrics featuring zebra, tiger, cheetah, and giraffe skin patterns. For centuries, animal prints have been a popular choice for accessorizing because their organic shapes are neutral and mix well with other patterns. The collection contains a range of small to large scale designs paired with striking colors like peacock blue, scarlet red, charcoal grey, sandy linen, and native black and brown. All patterns meet demanding performance standards for durability, and there are four patterns in the Menagerie collection engineered with the high-performance, stain-resistant capabilities of Crypton Home® : Gazelle, Zamira, Citra, and Masai.

Aja is a dense and beautiful representation of tiger fur. This fabric is very soft and luxurious—hard to keep your hands off!

Named after the White Spotted Gazelle, the beauty of the **Gazelle** fabric is that the spots peek through the chenille face. It is ultra-luxurious and feels as soft as it looks. The slight ombrè effect from light to dark is visually appealing. *Gazelle is a Crypton Home fabric.*

Etosha Velvet was inspired by our popular wallpaper and embroidery pattern. It is a large-scale cut velvet épinglé, which means the loop pile and the cut pile of the velvet both show and enhance the pattern.

Plush and textural **Amur** is named for the natural spots on this Russian leopard feline. It is an épinglé from Belgium with a looped pile that has a dry cotton look and feel.

Zamira is very grand in scale with a large 40" vertical repeat. The spine of the zebra stripe can be centered when upholstered and shows the asymmetrical pattern. *Zamira is a Crypton Home fabric.*

Citra is an invigorating and happy pattern. It is a small-scale impressionistic animal print with a mix of varying shades of colorful yarns. The ikat effect makes this cat a whole different species! *Citra is a Crypton Home fabric.*

Who says a leopard, or cheetah, can't change its spots? **Trixie** is a playful spotted fabric in a cotton/ rayon blend.

THIBAUT

WALLPAPER FABRIC FURNITURE

A giraffe's spots are much like human fingerprints. No two individual giraffes have exactly the same pattern! **Masai** is a beautifully woven mix of cotton, rayon, and flax fibers making it soft and breathable. *Masai is a Crypton Home fabric.*

Woven Resource Vol. 10: Menagerie and other Thibaut collections are available through interior designers and fine decorating stores worldwide. Please visit www.thibautdesign.com to view patterns and decorating ideas, and to obtain the names of local dealers. Founded in 1886, Thibaut is the oldest continuously operating wallpaper company in the United States. Known for its exceptional and unique designs, the company distinguishes itself from its competitors with inspiring color palettes, fresh interpretations of classic designs, and exclusive artwork created by an in-house design team. Design styles range from historic reproductions, toile, and chinoiserie to tropical and novelty patterns. Designers and consumers have been attracted to the firm's creative designs that "push the envelope," their exclusive print fabrics, new woven fabric lines, and their market-tested products that help inspire people to decorate. For more information about Thibaut, visit the company's web site at www.thibautdesign.com.
